# MARVEL BULLPEN BULLETINS!

# THE LATEST GOSSIP, GAGS, AND GIZMOS FROM YOUR BULLPEN TO YOU!

HOW ABOUT THAT! DEPARTMENT: Have you noticed the way Brands X, Y, and Z have been knocking themselves out trying to imitate the now-famous Marvel style? All of a sudden, we find watered-down versions of our own pulsating plots and devastating dialogue all over the placel But we're going to do something that's never been done before! This should finally prove how big-hearted we really are! We're gonna make it EASY for those panicky pussycatal. To save them the trouble of trying to imitate our inimitable style, we're thinking of they could be sure they finally have the same kind of stories as mighty Marvell We figure they owe it to whatever readers they have left! (Naturally we're only kidding, but we'll bet you anything that some clown from some other company drops us a line asking the price of those old yernsl)

DIDJA KNOW? DEPARTMENT: Didia know the real reason we changed the AVENGERS lineup? Here it is, honest injun! Iron Man, Thor, and Giant-Man were all starring in their own mags. After a while, it didn't seem right to have one of them captured In Transylvania in his own mag, while he might be taking in the Late Show on TV in the AVENGERS! The truth is, it seemed to kill all the realism-all the immediacy of both strips! In fact, that's why we took the Torch and bashful Benjamin out of STRANGE TALES. It's easier to keep track of all our costumed cuties when they're in one mag at a time-except for occasional guest shots, of course! So that's it! If you can make heads or tales out of Stan's longwinded explanation, consider yourself noprizedi

. . .

DEPARTMENT OF UTTER CONFUSION: We wanted to tell you which artists will do what strips this month, but the situation is more mixed-up than everl However, we can safely mention one change which we think you'll flip over-jounty JOHNNY ROMITA will do the Hulk in ASTONISH #77 (now on sale!), as well as continuing the breath-taking depiction of Daredevil in the masterful mag of the same name! Meanwhile, it looks as though ADAM AUSTIN will stay with fron Man for a while-he's doing too great a job to stop! Have you noticed more and more of darlin' DICK AYERS' inking popping up in our mags? We suspect he's jealous of all the fuss we've been making of jolly JOEY SINNOTT'S fabulous work the FANTASTIC FOUR, and he wants to get into the act himself! As for us, we're happy about the whole thing. We've been boosters of Dick's inking for as long as we can remembert

STRICTLY PERSONAL: It isn't generally known, but many of our merry Marvel artists are also talented story men in their own right! For example, all Stan has to do with the pro's like JACK "KING" KIRBY, dazzling DON HECK, and darlin' DICK AYERS is give them the germ of an idea. and they make, up all the details as they go along, drawing and plotting out the story. Then, our leader simply takes the finished drawings and adds all the dialogue and captional Sounds complicated? Maybe it is, but it's another reason why no one else can bring you that old Marvel magic!-By the way, one bullpen buddy you ought to know is genial JOHNNY HAYES, our beaming business manager and circulation director! Johnny's the gent who works night and day making sure our mags are sold throughout the free world! And, if you think only artists and writers are sporty souls, you should see the jazzy 2x2 fire-engine-red Mustang fastback that Joyful John zips to work inl

THE WRAP-UP: For those of you who were Marvel maniacs in the old days when we featured fantasy mags about the nuttlest assortment of aliens, monsters, and cavortin' kooks you ever saw . . . and, for those of you who missed those nutty, nifty, nostalgic yarns . . . we've got a thrilling surprise! Just for the fun of it—just so we can see what the work of our favorite artists looked like years ago—just so we can read some of those famous old fantasy classics Stan was batting out by the dozens before the Marvel Age—in other words, just for old times' sake, we're adding a new title to our line-up of hits—FANTASY MASTER—PIECESI The great first ish is on sale right now, and you've just GOT to get it! It'll be

Dear Stan

lames Bond, Agent 007, is every bit as sophisticated as Nick Fury is crude, and Napoleon Solo is every bit as witty as your agent of Shield is humorless, while a name-sake of Fury's, Nick Carter, Kill-Master, is as exciting as your new character is boring and overly melodramatic. Perhaps, as an avid James Bond fan, I'm insulted by your obvious attempt at something beyond the ken of a comic book writer. In comparison to Bond, Solo, Carter, or any of Erie Ambler's or Graham Greene's heroes, Fury is unintalligent and almost vulgar in his effort to imitate these and other spy characters. His vocabulary is that of a born high-school dropout, and it's beyond belief that he could so much as embark upon a career, let alone survive without the training, skill, suave cunning, and at times ruthless modus operandi used and displayed by his fellow agents. In other words-he's a slob!

Leonard Tirado, 1821/2 Regent St. Saratoga Springs, N. Y. 12866

He'd be the first to admit it, Len! And, unless we're not as semantically indoctrinated as we assumed, that's precisely what makes him not a copy of the estimable gentiemen you've enumerated above! And, as for your ever-lovin' editor lacking the crudition (or, as you so succinctly phrased it, the "ken") to adapt adequately so complex a character, we can only reply in that time-honored colloquialism which Nick Fury has virtually immortalized-in other words: wah-hooo!

Dear Stan, I agree with everyone else who says Shield is the best Marvel masterpiece to date and I think it should be kept that way. Then, in STRANGE TALES #138, you said that before long every Marvel good guy would star in it at least once. Don't! Nick Fury is so original because he is, really, an ordinary, everyday human being who relies on his wits, intelligence, and some pretty good gimmicks rather than super-powers. And it should stay that way! To drop a super-hero in the middle of Shield's battle with Hydra would, I think, ruin Nick's originality and realism. Please, let Shield fight Hydra alone! They can make it! Another thing, don't take away Nick's cigar. After all, he's been chewing on the same cigar for nearly twenty years now and it should have some sentimental value at least. Besides, you never know-weapons design may turn it into some new weapon-a miniature explosive rocket which could be launched using his shoelace as a launching rail. So, till then, carry on, Nick Fury, until earth is deHYDRAted for good! Ron Harris, 404 10th Snohomish, Wash.

A rocket eigar, ch? Using a shoelace as a launching rail, eh? Hmmmm! Tell us, Ron-have you copyrighted those ideas? We hope so, because those Brand Echh agents are everywhere!

Dear Stan,

I must congratulate you on issue #139 of STRANGE TALES. "The Brave Die Hard" was a smasher. Why wasn't Hydra's daughter's name mentioned? Is that blonde beauty's name top secret or something? Dr. Strange is up to his neck now in spellbinding spell-throwing against the Dreaded Dormammu ever since Mordo failed. But, we all know that good triumphs over evil, so DD really has no chance! In one letter a girl wrote to you asking about pen pals, and you said you didn't supply them. But, by the eyes of the sacred searab, you do! It's the letters pages themselves. I myself have gotten about ten, and number one on my list is the son of the president of the Philippines. I have over twenty pen pals, and when I finish a batch of Marvel mags I ship them all over because they're in such demand! Let not the evil of Set befall thee whilst thou keepest up the good work.

Peter Petroski, 2520 Balfrey Drive Toms River, N. J.

May the heary hosts of Hoggeth insure that thy sup-ply of proliferous pen pals doth never diminish! (And give our regards to Diasdado Macapagal, Jr., in the

Philippines. He's one of our eavortin' correspondents, too!)

Dear Stan.

Nick Fury is the sort of addition to the comic book industry (namely the Marvel Comics Group) which adds new zest and color to an already outstanding lineup of magazines. Although you may not realize it, you have in STRANGE TALES one of the all time great character combinations-the daring, explosive Nick Fury and the mystic protector, Dr. Strange. The thought of separating these two great hits is unbelievable. Your artwork is commendable in STRANGE TALES and the plots are usually understandable. I think serial stories are necessary to give a story book-like features, Keep up the outstanding work. Bill Kahles, 2303 West Byron Chicago 18, Ill.

We're gonna do our cotton-pickin' best, Bill! But, we got a kick out of the way you said our plots are un-derstandable! Isn't that what they're supposed to be? That's like saying you enjoyed a concert because you could hear the orchestra! Oh well, it's been a tough weekt

Dear Stan

STRANGE TALES #138 was well worth waiting a whole month for. Although Dr. Strange was good, Nick Fury's story was even better. It just proves you won't settle for second best. Hydra was really an original idea, but their costumes are even more so. As for the leader of Hydra, I'd say he was Mr. Brown who takes notes for Mr. Farrington, since Imperial Hydra would probably try to fade into the background as much as possible. To answer one fan's question about Shield's flying headquarters, the reason it couldn't be picked up on radar is because of a radar scrambler! And even if it were spotted, all missiles would explode because of a magnetic force field surrounding it, warding them off. Uatil next month, remember this—we Marvel fans would rather fight than switch!

Robert G. Dorobis, 88 Brown Place Jersey City, N. J. 07305

Wow! A few more fans like you, Bobby, and we won't he needing of Stan! You were dead right about Imperial Hydra's identity, and your explanation about Shield's flying HQ hit the nail right on the old bean-croo! Like we always say—Brand Echh may have more fans (which we doubt), but we've got the brightest!

NEXT ISH: You'll thrill to the block-bustin' conclusion of Shield's current adventure, as well as getting a foretaste of the next, newest, nuttiest, most nerve-wracking saga you've ever gaped at! As for Dac Strange, all we can say is that he's as mystical, magical, and memorable as everi So, don't miss STRANGE TALES #143—we wouldn't want you to reproach yourself forever after!
